

Stronger Smarter Leadership Program Rooty Hill RSL Club, NSW

The Stronger Smarter Institute is pleased to announce that it will be offering the Institute's flagship leadership program to school and community leaders throughout Western Sydney. This is the first time a program has been offered in collaboration with the Australian Primary Principals Association (APPA).

The Stronger Smarter Leadership Program aims to challenge and support school and community leaders in their pursuit of educational excellence for all students. The program engages participants to develop and enhance their leadership capacity by:

- Embracing beliefs and practices to support a positive sense of student identity,
- Understanding the importance of positive community leadership and the importance of high expectations relationships, and
- Identifying and responding effectively to current leadership challenges.

The program equips participants to actively engage the school community so that everyone understands the importance of high expectations relationships and promotes positive identities and excellence in schools.

Undertaking the program requires a minimum one- year commitment, including participation in a 4 day professional learning program, a 2 day follow up workshop and regular contact with Institute staff.

The Stronger Smarter philosophy promotes a strengths-based approach to improving school and community outcomes. The Institute is committed to fostering understandings of how to create high expectations relationships, wherein leaders are motivated to strengthen their connections with staff, students and their families and further engage with their local communities. These relationships are designed to do things with people, not to them.

Stronger Smarter Leadership Program

Phases 1 and 2 are face-to-face forums held at Rooty Hill RSL Club.
